-ONLINE-

Schneider Electric

28 Contact Hours

Sage Designs is hosting a 4-day training course for GeoSCADA (formerly ClearSCADA) Enterprise SCADA Host software.

Day 1	8:00-4:00 PM	Installing GeoSCADA, Introduction to GeoSCADA, Components, Using ViewX, GeoSCADA Help.
Day 2	8:00-4:00 PM	Configuring/Using ViewX, Database Organization, Basic Telemetry Configuration, Creating Mimics, Creating Trends.
Day 3	8:00-4:00 PM	Configuring using ViewX, Templates and Instances, Logic Languages, Security, Communications Diagnostics
Day 4	8:00-4:00 PM	Reports, System Configuration, System Architecture, Questions

Instructor: George Vazquez & Tony Sannella, Sage Designs, a Factory-certified Instructor.

Location: This course will be held online via Zoom webinar and screen share. Participants will be shipped an equipment kit for use during the course.

Who should attend?   SCADA engineers, managers, independent integrators and any other SCADA related personnel who need a comprehensive introduction to Schneider Electric GeoSCADA software.

What will I need? Attendees to this course must have a laptop computer running Windows 10, with a working Ethernet port and access to internet for training. You must have the current GeoSCADA software version installed. The demo version is acceptable and can be downloaded at this link. You must also have necessary permissions on your computer to install software and modify settings and the ability to change your Ethernet port configuration for communications with the shipped equipment. Attendees will also need to have a mouse with a scroll wheel.

To Register: Complete the information below and send to Orders@SCADAWise.com.

Name (*please print*):	Title:
Company:	Phone:
